

# 5 THINGS EVERY STROKE HERO SHOULD KNOW!

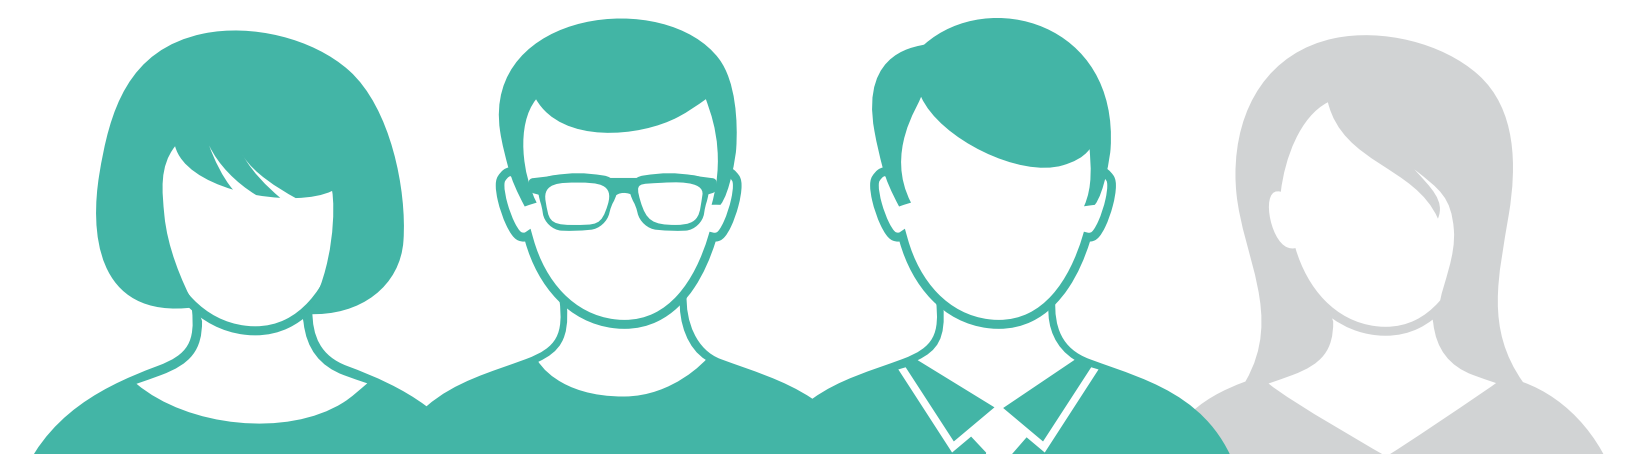

## 1 Even SUPERHEROES are in DANGER.

STROKE RISK increases with age, but young adults, children and even unborn babies can suffer strokes. It's the number 5 cause of death in the USA and kills nearly 6.5 million people worldwide each year.

## 2 HIGH blood pressure is stroke's public ENEMY #1.

3 out of 4 who suffer their first stroke have high blood pressure.

## 3 80% OF ALL STROKES CAN BE PREVENTED.

Maintain a healthy body and mind by getting enough sleep (7-8 hours per day), be active and exercise regularly, eat healthy and get regular check-ups. Don't smoke and if you do - STOP.

## 5 FRIENDS usually SAVE friends from STROKE.

Learn to recognize the warning signs of stroke.

## 4 STROKE is largely TREATABLE.

Time = Brain. Clot-busting drugs and medical devices have made stroke largely treatable, but every second counts. The faster you're treated, the more likely you are to recover without permanent disability.
